PROFESSIONAL SUMMARY

Motivated **Python Developer (Fresher)** with hands-on experience in **Django, REST API development, Machine Learning, and backend development**. Skilled in building scalable web applications, developing APIs, and working with databases using **Python and SQL**. Completed a Python Developer internship and built multiple real-world projects including a **Machine Learning prediction system and Web Vulnerability Scanner**. Seeking an entry-level Python Developer role to build robust backend systems.

TECHNICAL SKILLS

Programming Languages
Python, SQL

Frameworks & Libraries
Django, Django REST Framework, Pandas, NumPy, Matplotlib

Web Technologies
HTML, CSS, JavaScript, REST APIs

Database
SQLite, MySQL, SQL Workbench

Tools & Platforms
Git, GitHub, Jupyter Notebook, PyCharm, VS Code, Excel

Concepts
Object-Oriented Programming (OOP), Data Structures, API Development, Backend Development, Machine Learning Basics

---

INTERNSHIP

Python Developer Intern

Amba Software | Nov 2024 – Jan 2025

- Developed backend features for a **client-facing web application using Python and Django**.
- Built **RESTful APIs using Django REST Framework (DRF)** for efficient frontend–backend communication.
- Created responsive UI components using **HTML, CSS, and JavaScript**.
- Used **Git version control and Agile methodology** for collaborative development.
- Contributed to the development and deployment of **2 production modules**.

Web Development Intern

Cognifyz Technologies | Aug 2025 – Sep 2025

- Worked on **web development projects involving frontend and backend integration**.
- Demonstrated strong **problem-solving, coordination, and communication skills** while completing assigned tasks.
- Implemented features for web applications and assisted in improving **website functionality and user experience**.
- Gained practical exposure to **modern web development tools and best practices**.

Python Full Stack Developer Intern

Techspiration India Pvt Ltd | Dec 2025 – March 2025

- Developed full-stack web applications using **Python, Django, HTML, CSS, and JavaScript**.
- Designed and implemented **REST APIs for backend services** and integrated them with frontend interfaces.
- Worked with **SQL databases and ORM for data storage and retrieval**.
- Debugged and optimized application performance to improve **system efficiency and reliability**.
- Collaborated with the development team to implement **scalable and maintainable code structures**.

PROJECTS

Syncher – Menstrual Cycle Prediction System

GitHub: https://github.com/rutvikmat/sync-her

- Built a **Machine Learning pipeline using Python** to predict menstrual cycles based on user data.
- Implemented predictive models such as **Random Forest / LSTM** achieving **92% accuracy**.
- Created a system to detect **cycle irregularities and health indicators** using anomaly detection techniques.
- Used **Pandas, NumPy, and Matplotlib** for data analysis and visualization.

Web Vulnerability Scanner

GitHub: https://github.com/rutvikmat/WEB-VULNERABILITY-SCANNER

- Developed a **Python-based security tool** to detect OWASP Top 10 vulnerabilities.
- Automated detection of **SQL Injection (SQLi) and Cross-Site Scripting (XSS)** vulnerabilities.
- Generated detailed **risk-based vulnerability reports** categorized by severity levels.
- Improved secure coding awareness for web applications.

Decentralized Verification System (Blockchain Project)

GitHub: https://github.com/rutvikmat/Dapp

- Built **smart contracts on Ethereum blockchain** for decentralized identity verification.
- Implemented **Selective Disclosure** to allow secure and private credential sharing.
- Designed tamper-proof credential registry using blockchain architecture.

EDUCATION

Master of Computer Applications (MCA)
KLE College of Engineering and Technology, Chikodi
GPA: 9.0 | Feb 2024 – Nov 2025

Bachelor of Science – Computer Science
Govt First Grade College, Dharwad
69% | June 2019 – Aug 2022

CERTIFICATIONS

Python Development Certification – 2025

- Core Python programming, data structures, loops, functions, and problem solving.

Privacy and Security in Online Social Media – VTU (Elite Gold)

- Learned privacy protection, cybersecurity risks, and social media security mechanisms.

Unlocking Creativity with Generative AI – 2025

- Learned GANs, LLMs, and generative AI model fundamentals.

Web Development Internship Certificate – Cognifyz Technologies (2025)

- Completed internship focusing on **web application development and practical implementation of web technologies**.
